OBSESSION

The Charter of a lifetime

OBSSESSION...

Part of the Oxford Dictionary definition states “.....fill the mind of....”.

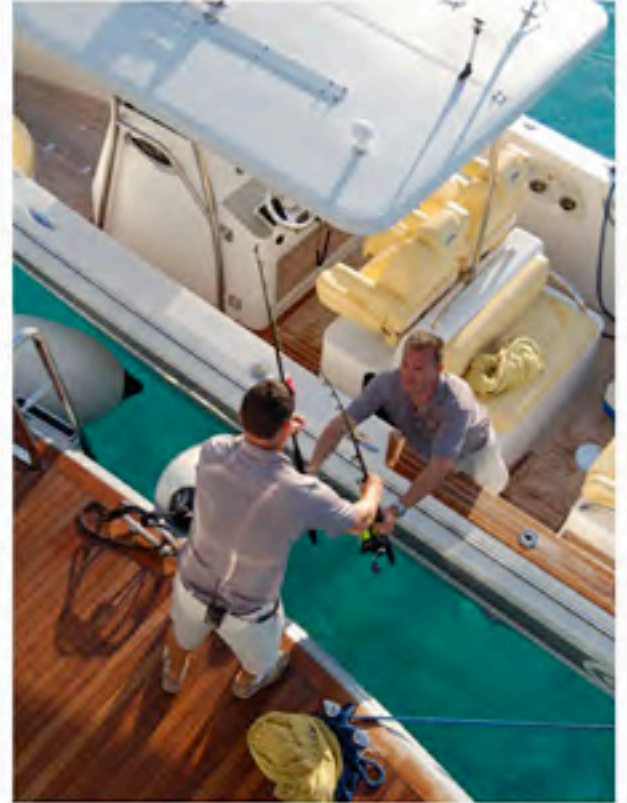

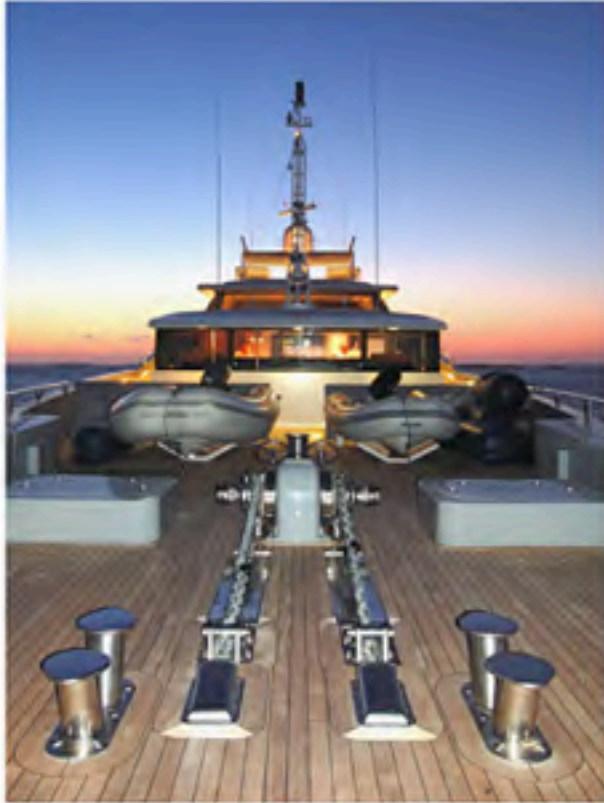

Fortunately, this would seem to have held true in the case of her owner who, when considering the prospect of building a new yacht, apparently had his mind filled with the idea of refitting his first love, his obsession. This was not a decision taken in order to cut costs, indeed the total refit invoices could have actually secured a new, albeit slightly smaller, yacht.

Here was someone who loved the vessel he already had and decided to give her new life. The result is splendid.
